

Resource Partners, LLC Recognized as a Resource Healthcare Services Consulting Agency by the Primary Care Patient Centered Collaborative

Resource Partners, LLC will be featured in the new Primary Care Patient Centered Collaborative (PCPCC) resource guide, "Putting Theory into Practice." The guide will consist of healthcare organizations from across the nation based on demonstrated experience in patient-centric care.

Resource Partners, LLC, a Charleston, South Carolina-based healthcare consulting firm, has been selected by the Primary Care Patient Centered Collaborative (PCPCC) to be featured in its upcoming resource guide, "Putting Theory into Practice." The guide, which is to be released in October 2011, will be comprised of select companies focused on supporting healthcare organizations and doctor's offices transition into more organized and patient-oriented practices.

As the field of medicine continues to progress and grow, the need for more efficient ways of delivering quality care has become more imperative. For many practices, finding the right tools required to execute this often cumbersome undertaking is an arduous task on its own. The purpose of the PCPCC resource guide is to facilitate this need by compiling a master list of consultation experts, such as Resource Partners, LLC, for healthcare providers to refer to when they are ready to make the move to patient-centric care.

Resource Partners, LLC is honored to be included in the PCPCC's comprehensive new resource guide. During their over 23 years of experience specializing in various consulting functions, including automation of healthcare offices, cost effective staffing strategies and marketing, Resource Partners believes they have developed an intimate familiarity with the needs of medical homes and communities that is essential to providing excellent service.

Resource Partners, LLC believes it is time to put policy into practice, and stand ready to support the formation of exceptional medical care communities across the country.

About Resource Partners, LLC:

In 1989, Resource Partners, LLC entered into the field of IT consulting, after 8 years in the medical and industry specific accounting fields. Since that time, the company has consulted with medical practices in more than twenty states representing all major office-based specialties. Our company boasts a clientele of over 200 practices. Within each area of expertise we are now able to provide an appropriate level of service for any health care practice, from consulting and supervising projects to day-to-day operational functions.

About the Primary Care Patient Centered Collaborative (PCPCC):

The PCPCC was created in 2006 as an employer-lead healthcare coalition. The collaborative strives to facilitate improvements in patient-physician relations, create a more effective and efficient model of healthcare delivery and offer an open medium for healthcare stakeholders to discuss issues and improvements concerning the American medical system.
