

## WHO WE ARE

We are healthcare consultants providing health technology and process improvement solutions.

For more than 25 years our healthcare consultants and originating partner organizations have offered health technology solutions with a primary focus on ambulatory healthcare entities. Our solutions are grounded in technology that supports the needs of healthcare organizations and the capabilities of third-party technology vendors.

Our experts are dedicated to helping healthcare delivery organizations enhance their processes and streamline their operations through the strategic and effective use of technology. With decades of combined experience, our highly skilled leadership team is dedicated to guiding your healthcare organization to the best possible outcome.

In 2010 we launched a healthcare management division, Medical Home Development Group (MHDG), which provides our clients with end-to-end resources that support the business of medicine.
